1. Make sure all lines on application are completed.
2. Give precise directions to your home in the space provided.
3. Sign the application in all places that indicate applicant & witness signatures.
4. Any signatures indicating that they require a witness MUST be WITNESSED. (Anyone can witness for you)

5. Proof of Household Income (see page 2 for qualifying income guidelines) for ALL household members.
   A. To get proof of income from Social Security (A COPY OF YOUR AWARD LETTER) go to: https://secure.ssa.gov/apps62/BEVE/Controller or call (877) 575-5195
   B. All members of household WITH NO INCOME whom are 18 years and older must submit a Notarized Certification of Zero Income (contact our office for this form).
   C. All EMPLOYED members of the household must submit a "Verification of Employment" (VOE) (contact our office for this form).

6. You must provide a copy of the ELECTRIC BILL specifically for the address requesting weatherization services.

7. You may either Own or Rent your home. If the deed of your house is not in your name you will need a "Renters Agreement" (this agreement is ANYONE who's deed is not in their name) signed by yourself AND the person named on the property title deed (contact our office for this form). The Owner must agree to pay 50% of all major expenses, such as replacing heating and air conditioning units and water heaters.

8. We process the Weatherization application using a priority system based on income, age, disability status, small children, date of application, and number of occupants. ELDERLY AND HANDICAPPED ARE TOP PRIORITY. This is not a first come, first service program. Based on all the combined factors, we assign a priority number and the client is placed on our waiting list. The higher the points, the quicker service will be received. The agency has five counties in which we work, and many applicants. THE WAITING LIST may be UP TO 1 YEAR LONG. We greatly appreciate your patience!

9. Once your home has reached the top of the waiting list, we send a crew out to "measure" your home. They will measure the windows and doors, conduct various tests to assess the air leakage in your home which causes heat/cooling loss and then we determine what work needs to be done to minimize the leakage in your home to reduce your energy bills. This information is put into the NEAT/MHEA Audit and final computerized recommendations are produced by this Audit.

10. Once your home has been measured, materials for weatherization of your home will be ordered. Then we can begin the following month. There is no obligation of the client to pay for any weatherization work completed on their home.
Do You Qualify for Weatherization Assistance?

Radon Consent

Weatherization achieves energy and cost savings and improved comfort, health and safety of homes through a variety of home retrofit measures, including some which improve the airtightness of the building. According to the Department of Energy (DOE) sponsored study, "Weatherization and Indoor Air Quality: Measured Impacts in Single-family Homes under the Weatherization Assistance Program," there is a very slight risk of increased radon levels in some homes when the building air tightness levels are improved. These increases are smaller in manufactured housing everywhere, and all homes in low-radon potential counties, and higher in site built homes in high-radon-potential counties. There is some evidence that the installation of continuous mechanical ventilation reduces radon levels in homes, and counteracts any radon increases that are due to improved building air tightness levels.

Zones 1 and 2 Only:

Precautionary Measures: Since your house is located in a county identified as having moderate- to high-potential-radon levels (1), precautionary measures indicated below will be installed as part of weatherization:

- Exposed dirt floors covered and sealed
- Floor/foundation penetrations sealed
- Other (Describe):

I am aware that there is a small chance that weatherization may result in increased levels of radon, and that mechanical ventilation may counteract those increases. I have chosen to go forward with weatherization, and accept all risks of injury or damages.

I have carefully read this informed consent form and have signed it of my own free will.
